TEST NOTES

6061 sheet or plate certified to AMS 4025, AMS 4026, or AMS

4027 also meets applicable requirements of canceled specification AMS-QQ-A-250/11, Rev. A.

CERTIFICATION

Kaiser Aluminum Washington, LLC has a Quality Management System which is in compliance with ISO 9001, AS9100, and ISO 14001. All material shipped under this order:
* has been inspected, tested, and found to be in conformance with the requirements of the specifications indicated herein. All test equipment and measuring devices are calibrated and certified in accordance with applicable specifications. For material thicknesses outside specification limits, mechanical properties are as shown herein and chemical composition meets specification requirements. Reported elongation values have been measured as elongation at fracture.
* was melted in the United States of America or a qualifying country per DFARS 225.872-1(a), was manufactured in the United States of America, and meets the requirements of DFARS 252.225 for domestic content.
* has been thermally processed in compliance with AMS 2772, where applicable.
* is mercury free, within the limits of detection of ASTM E1251 (< 1ppm).
* is free of weld repair.
* meets the reporting requirements of EN10204, Type 3.1.

Kaiser Aluminum Washington, LLC, has complied with all producer requirements of AS6279.

For additional information (Nadcap certifications, Safety Data Sheets, RoHS, REACH, Conflict Minerals, etc.), refer to Kaiser's corporate website at www.kaiseraluminum.com.

Any and all warranties are limited to those shown on Kaiser Aluminum's standard general terms and conditions of sale. Test reports are on file, subject to examination. Test reports shall not be reproduced except in full, without the written approval of the Kaiser Aluminum laboratory. The recording of false, fictitious or fraudulent statements or entries on the certificate may be punished as a felony under Federal law.
